- Jan Group (Pakistan)
- CJS Co (Pakistan)

QuickPOS Introduction

QuickPOS includes a comprehensive list of features that are ideally suited for quick service. Make quick and easy sales, manage your loyalty program and inventory all from your computer, smartphone or tablet.

Build your customer base and stay in touch. Send messages and e-receipts to your customers and collect valuable feedback.

Make informed business decisions based on visual analytical reports. Retrieve your sales report and track your business growth. Pay monthly, with no string attached. Subscribe longer to save more.

Whether you're in retail or wholesale, Inventory is one of your biggest expenses. Can you afford not to manage it effectively? QuickPOS helps you understand cost of goods sold and stock movement. You can strategically order stock to keep up with demand without overstocking. From a single inventory, sell your stock in-store and online. See your inventory count updated in real time.

QuickPOS Features

Easy to Use

QuickPOS is easy to use and user friendly. In just 30 minutes, you can learn to use software.

Inventory

Organize products by category, type, season, sale, and more. Use smart collections to automatically sort products based on vendor, price, and inventory level. Manage your entire inventory with software. Track stock counts, and automatically stop selling products when inventory runs out.

Sales and Purchase

Quick entering barcode enabled sales, purchases, orders and quotes. Easy and user friendly interface enables fast operation.

Customers Management

Your customers' information is synced with software, so their order history can be referenced or tracked – no matter where the order was placed.

Vendors Management

Easy to maintain vendors base. Track vendor purchases, returns and ledger.

Automatic Accounting Journal Entries

QuickPOS has built-in accounting functionality. Automatics journal entries enable fast and automatic accounting of your business

Ledger

Maintain customers, vendors and staff accounts right from software.

Expenses Management

Keep track of all of your expenses. Automated Cost of Goods Sold entries in software. You can manage expenses at any level.

Equity Management

Equity, Capital Share management options provided in software.

Multi Roles and Users

Add as much as roles and users on software.

Local, Web or Cloud Deployment

You can use software on local computer without internet or you can deploy software on web/cloud and can access from computer/mobiles.

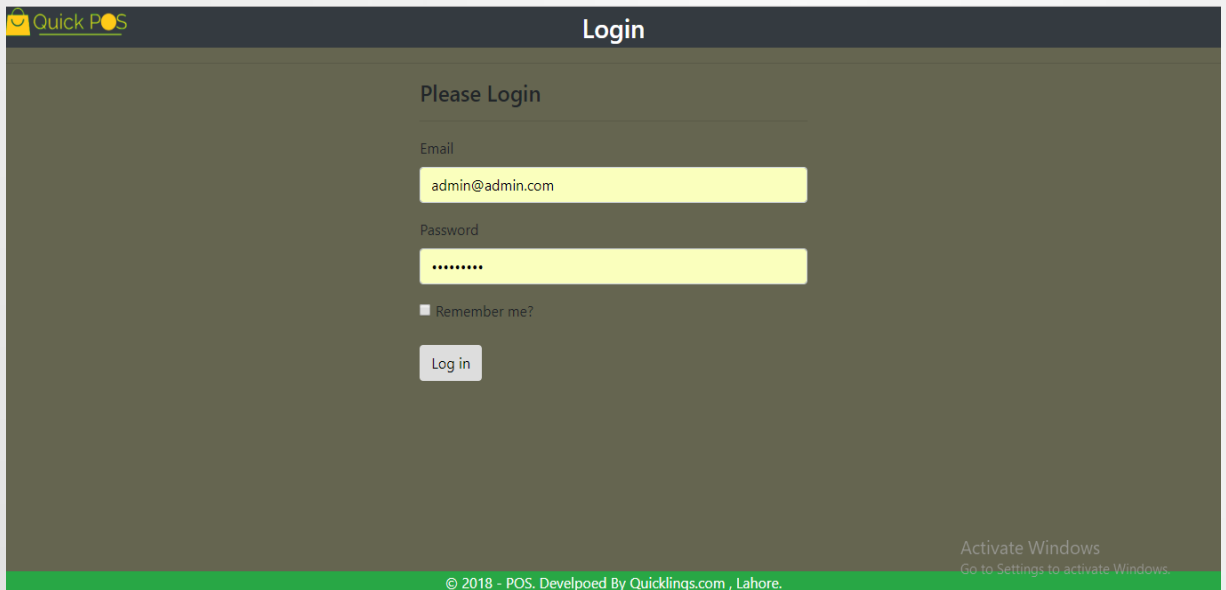

Branded SMS through software

Sales notifications and Promotional branded SMS can be integrated on software.

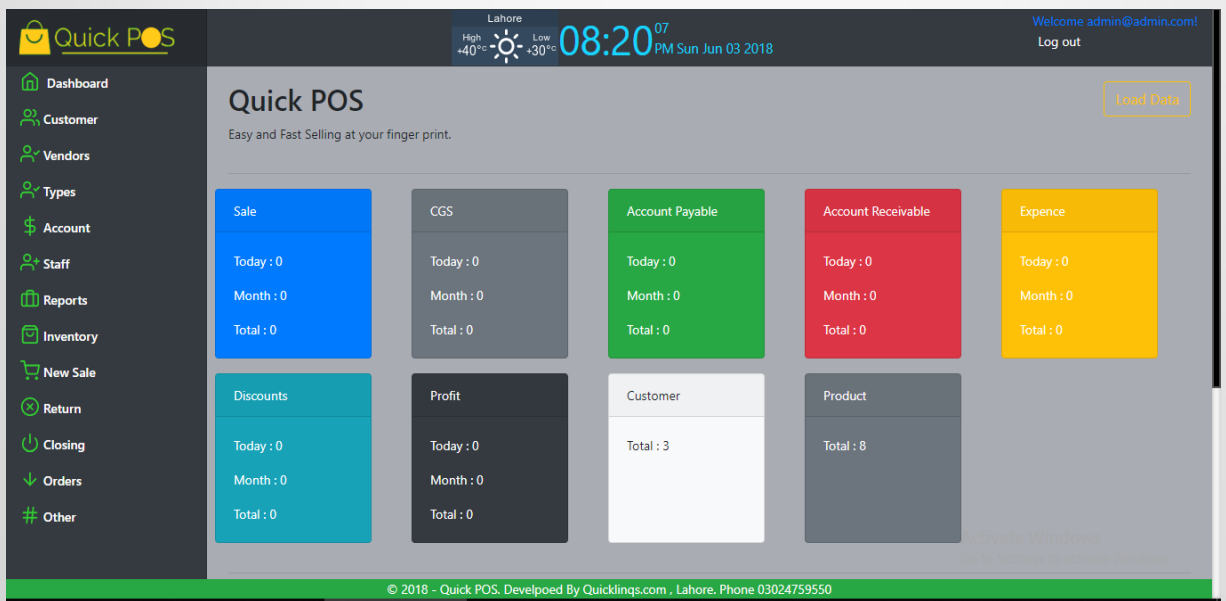

Invoicing and Billing and Receipts

Print your invoices, bills and payment receipt from software .You can print pdf or on thermal printer.
